

Parent's Career Checklist

10 questions to ask before choosing any course or counsellor

Only **10% of Indian students** get professional career guidance (Bharat Career Aspirations Report 2025). Don't let your child choose in the dark. Tick each box below before you decide on a stream, college, or counsellor.

BEFORE YOU CHOOSE A COURSE

☐ Have we done a real **aptitude & interest test** — not just a guess?

☐ Do we know the **job prospects & salary range** for this course?

☐ Is this choice based on **my child's strengths**, not relatives' advice?

☐ Have we listed at least **2 backup options** if the first plan fails?

☐ Does the **college fee fit our budget** without heavy loans?

☐ Is the **counsellor independent**, or paid by colleges to fill seats?

☐ Will we get a **written roadmap** to keep, not just a chat?

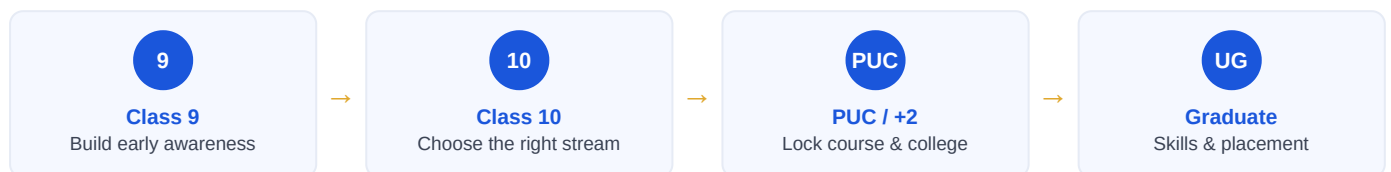

☐ Does the advice use **current data** (India Skills Report 2026)?

☐ Is there a **follow-up** option if doubts come up later?

☐ Are we deciding **early enough** — Class 10 or PUC, not last minute?

Parent tip: A wrong course choice can waste 2 years of fees and time — far more than the cost of one good counselling session. The goal isn't the cheapest advice; it's the **lowest cost per right decision**.

WHEN TO START CAREER PLANNING

WHAT A CLARITY SESSION GIVES YOU

①

Aptitude Assessment

A structured test that reveals real strengths — not guesswork.

②

1:1 Expert Guidance

An honest conversation mapping interests to real careers.

③

Written Roadmap

A clear plan with exams, deadlines and backup options to keep.

Still unsure? Start with one Clarity Session.

Assessment + 1:1 guidance + a written roadmap — built on data, not guesswork.
